SAMSUNG

Galaxy Tab Active5

Consistent with IP68 rating, water resistant in up to 5 feet of water for up to 30 minutes. Rinse residue / dry after wet.

No job's too tough

Give your frontline team a tablet that's more than up for the job with Galaxy Tab Active5. This Tab helps your crew do more with less while staying productive on-site or in the truck — perfect for field workers and industries like delivery services, warehouses and law enforcement. A durable and water-resistant design withstands drops, spills and extreme heat and cold[1,4] The responsive touchscreen makes it easy to knock out tasks — it even works if you're wearing gloves or with water on it[6] Keep the workflow going with a long-lasting battery that's also replaceable — simply swap it for a fresh battery and continue on. Customizable features such as hot keys empower your workers by letting them turn the tablet into a scanner or a two-way receiver with compatible apps. Plus, your employees will work efficiently since Tab Active5 is part of a rich system of partner software and hardware integrations they already know and respect. And you'll experience peace of mind knowing Tab Active5 is designed with the built-in protection of Knox Security to help keep your business's data away from prying eyes.

An enterprise-ready solution

Easily enroll, configure, manage and analyze hundreds of devices and more with access to Knox Suite[3] on your Galaxy Tab Active5.

Defense-grade security, built right in

With Knox defense-grade protection built right in, we've got your data security covered.

Rugged and ready for work

Conquer the elements with a dust-, dirt-, sand- and water-resistant design. Galaxy Tab Active5 is IP68-rated[2] in compliance with MIL-STD-810H[1] to absorb shocks even when dropped[4] and can be safely sanitized.

Never be without power

Keep moving in the field with a replaceable battery[15] Plus, work in No Battery Mode[5] when you're connected to a dedicated power source.

Leave the gloves on

The responsive touchscreen even works with gloves, so your team stays safe and dry while they get more done[6]

Make a sale from anywhere

Ring up customers from anywhere with mPOS[7] a feature that turns your Tab into a mobile point of sale.

Color	Dark Green	**GPS**	GPS, GLONASS, Galileo, BeiDou, QZSS[19]
