

Expand your smartphone into a full rugged workspace

FIELDBOOK LD 140

The Fieldbook LD140 redefines mobile productivity. Unlike a traditional laptop, it is a rugged lapdock that uses the power of your smartphone to deliver a full desktop experience.

With its MIL-STD-810H & IP65 certification, 1.2m drop resistance, and a 14" 1000 nits sunlight-readable display, the LD140 combines the toughness of rugged hardware with the flexibility, cost-efficiency, and security of Android Desktop.

Why Android Desktop?

Leverage your smartphone – desktop-class performance from a single device

Lower costs – one device powers both mobile and desktop work

Simplify IT – fewer devices to deploy, update, and secure

Stronger security – no data stored on the lapdock

Seamless experience – same apps and workflows, handheld or desktop

Why Rugged?

Always reliable – resistant to drops, shocks, dust, water, and vibration

Outdoor ready – 14" 1000 nits display for full sunlight use

Continuous operation – built to minimize downtime and extend lifecycle

Field mobility – integrated handle and robust chassis for demanding conditions

Proven tough – certified to MIL-STD-810H and IP65 standards

Key Highlights

Rugged lapdock for Android Desktop smartphones

14" 1000 nits sunlight-readable display

MIL-STD-810H & IP65 certified, drop resistant to 1.2m

Full-size keyboard with touchpad

Integrated transport handle for mobility

3× USB-A, HDMI, RJ45 Ethernet, camera, audio features

Built-in battery extends autonomy and recharges the smartphone
