High Performance in Motion

Meet the Forge L5

The Forge L5 combines Lenovo Android 16 tablet performance with MobileDemand ruggedization and deployment solutions to create a compact yet powerful device built for demanding work environments. Featuring an 8.8-inch high-resolution display, ultra-fast Snapdragon™ processor, and lightweight design, it helps teams stay productive whether on the warehouse floor, in transit, or at a workstation. Fast, versatile, and ready for business - this is mobility built to perform.

PROVEN RUGGED

Engineered for demanding environments, the rugged Forge L5 bundle combines a rigid outer shell with shock-absorbing rubber corner bumpers to help protect the device from everyday drops and impacts. Designed to meet rigorous military-grade standards, the complete solution delivers dependable durability when and where it matters most.

MOUNTABLE

Built for flexible deployment, the Forge L5 bundle is designed to mount virtually anywhere - from forklifts and vehicles to carts and workstations - using the included Snap Plate, a key component of MobileDemand's patented Snap Mount System. Optional direct wiring kits provide continuous power for uninterrupted performance in the field.

HIGH PERFORMANCE

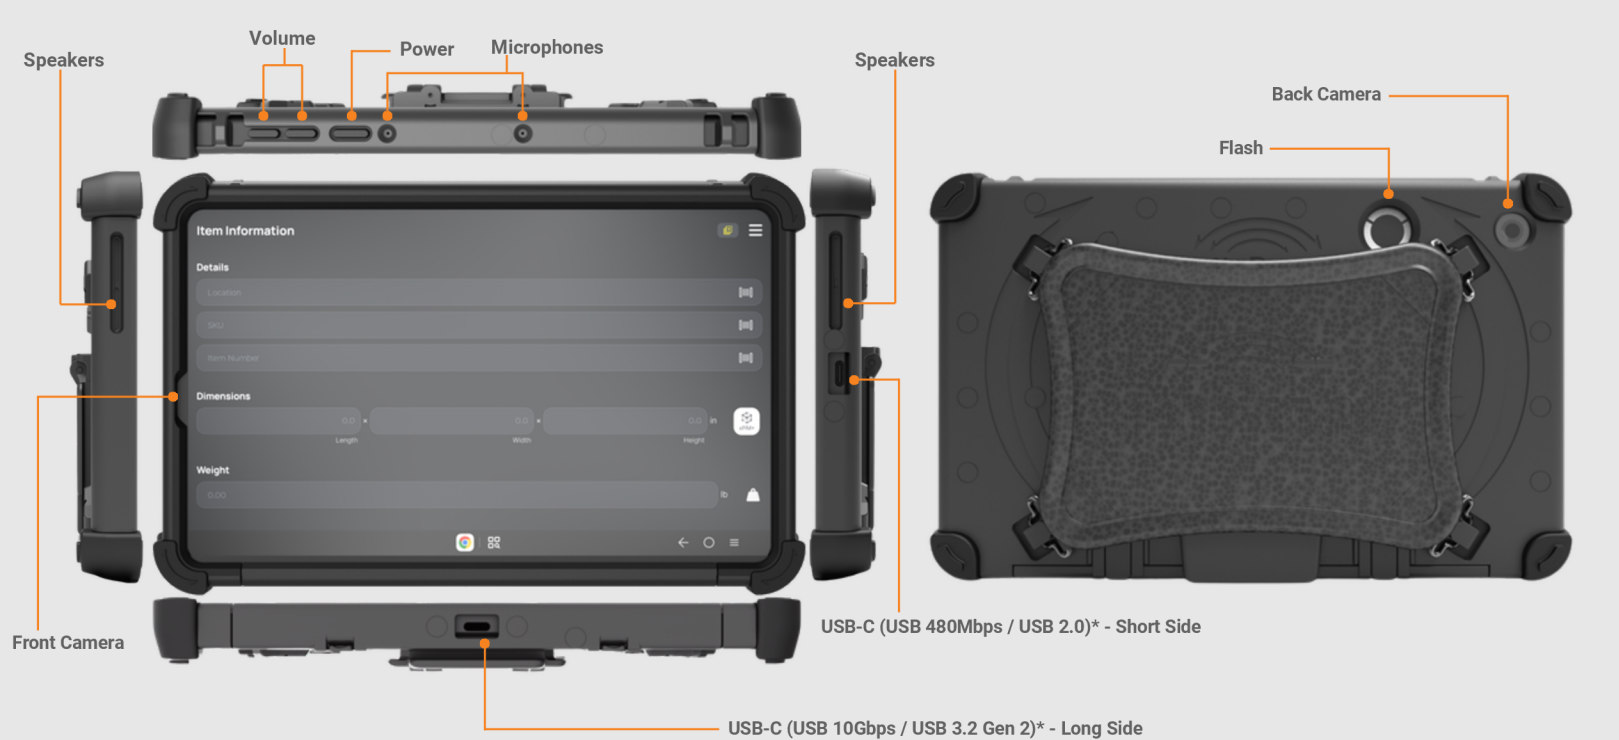

Powered by the Qualcomm® Snapdragon™ 8 Elite Gen 5 (4.60 GHz) processor, the Forge L5 delivers exceptional speed and responsiveness. With up to 12 GB of memory and a long-life battery, it's built to stay productive and perform reliably through extended shifts - day or night.

CONVENIENCE

Designed with everyday usability in mind, the bundle includes a built-in briefcase-style handle and rear hand strap for easy transport, along with a versatile snap mount rail for flexible deployment options. The solution is also add-on ready, supporting future expansion with accessories such as barcode scanning and payment system integrations.
